Step Towards Realization of the DREAM @ Kanchenjunga

Introduction

Alumni Association started functioning inside JGEC Campus in the year 2010. From inception, the Alumni Association has taken up various Student & campus centric activities. While pursuing the activities, the Alumni Association evaluated a need for having a state of the art infrastructure inside JGEC Campus to connect and communicate with the ex-students and entire JGEC fraternity. With this vision, Kanchenjunga, a state of the art Convention Centre was conceptualized.

To build the infrastructure, the Alumni Association approached JGEC authority for space inside campus. However, due to various constraints, it was not realised. To materialize the idea, Alumni Association procured a private land within the campus (near the workshop, opposite to the so-called generator/powerhouse) in the year 2013.

Starting from the procurement of land to construction till today become feasible due to the generous contribution of our respected Alumnus of various batches. To complete the endeavour, the Alumni Association is dependent on the support of our respected Alumnus.

First floor: library cum one video conferencing room, five guest rooms for accommodation with lounge
